

CREATION WEEKEND

Warren Covenant Church // February 28 – March 2, 2025

The Lord Jesus Christ was the greatest Bible teacher of all time, and when He taught about Himself and His plan for the world, He began with the book of Genesis. In this conference, ICR speakers call believers back to the Biblical account of Genesis as they demonstrate that the Bible provides the best explanation for the origin of the universe and the diversity of life on Earth.
